PORTFOLIO

Let's go bro

project year 1/1 Srinakarinwirot U.
2022

Let's go bro is the name of our project. I have responsible for writing UI/UX and character design. It is a maze game which created by prim's algorithm using Unity engine.

Hypno Care

project year 1/2 Srinakarinwirot U.
2023

Mobile application for high blood pressure patient that help to control amount of food and sodium in their food. I have responsible for making UX/UI by Flutter and Dart

Chick Chat

project year 2/1 Srinakarinwirot U.
2023

This project is related to a web application where people in a social network can communicate with each other on our platform. I have been learning about how to use responsive design in HTML and CSS.

EDUCATION

Bodindecha (sing singhaseni) school
2016-2022

Srinakarinwirot University
Faculty of computer engineering
2022-today
